Reeve's Message

It is my pleasure to serve as Reeve of the Township of Dorion. I appreciate the expertise and experience that the other members of Council bring to our table. Our staff is knowledgeable and dedicated in providing the day to day operations of our Township.

Dorion has a proud history. In 1901 settlers cleared the land and set the stage for future generations. Dorion became an Improvement District in 1951 and became an Organized Township in 1969.

The Township has developed a Strategic Plan which is a living document that will help guide Dorion forward.

Dorion is fortunate to have a Volunteer Fire Department, Community School, Ontario Early Years Centre, a Public Library, and Museum.

Our small community benefits greatly from our largest corporate contributor – Enbridge Inc. Their Community Investment Fund assists many groups in our community, supports recreational activities and funds our recycling program. Their sponsorship is greatly appreciated.

Dorion is recognized as a tourist haven. We welcome visitors to Ouimet Canyon, a natural park operated by Ontario Parks. The Friends of Ouimet Canyon Provincial Park, a local group of volunteers, proudly assists with the program by greeting visitors and maintaining the Park.

Eagle Canyon Adventures has Canada's longest suspension bridge and zip line. Hurkett Cove Conservation Area, owned by the Lakehead Region Conservation Authority, is a natural paradise and is becoming one of the top birding sites in northern Ontario. Someday, this area may very well be the Point Pelee of the North. The Wolf River is an attraction for anglers and Wolf Lake, nestled in the back country adjacent to Dorion, is very popular for camping, fishing and hunting.

In summary, on behalf of the Township of Dorion and our residents, I welcome you to Dorion – “A Safe, Caring, Healthy, Rural and Sustainable Community.”

Sincerely,

Ed Chambers, Reeve

The Township of Dorion
